Top Secret Service is a series of six detective novels by Patricia Cornwell which chronicle the adventures of Dr. Kay Scarpetta, a forensic anthropologist who solves crimes using her knowledge of anatomy and forensic science. The first book was published in 1991, and the last in 2006. The series has been adapted into a TV series which ran for 6 seasons from 2000 to 2005, and was made into a film in 2015. Themes Top Secret Service may be a medical mystery, but it is mainly about the human condition, and the way we can be swayed by the beliefs and ideals of others. The reader learns that in order to understand the motives of a killer, it is important to understand how and why he views the world, how he made the decision to commit a crime, and how it shaped his view of the world. This is true of every character in the series, even the main protagonist, Kay Scarpetta, who at times seems to think that the world is just an absurd puzzle she has to solve. Also of interest is the recurring theme of inter-racial relationships, which are mainly taboo in the southern states. Kay Scarpetta is often compared to Dr. Jekyll and Mr. Hyde, for she can be cold and calculating, or she can be warm and nurturing. Individual books Secrets of the Dead Secrets of the Dead (1991) The Body in the Ice (1992) The Body in the Snow (1993) The Body in the Stones (1995) The Body in the Tree (1996) Dr. Kay Scarpetta, Forensic anthropologist An Oxford-educated doctor, Kay Scarpetta becomes a consultant for the Virginia Medical Examiner, a job that allows her to travel to other states and also meet interesting new people. This would seem to be a better fit than her previous job as a research scientist in the Department of Pathology at the university. As a consultant, she has more time and resources to devote to the cases she takes on. Kay has two adult sons, Jack and Pete, and a daughter, Lucy. She is married to Dr. Donald Kent, a surgeon and brilliant diagnostician, and is a co-founder of the Virginia medical examiner's office. Kay has a secret to share with the reader - she is adopted, and her biological mother is a woman she has never met. However, she has been able to establish her relationship with her biological mother,
