Sail away to the islands and enjoy the simple life of a young girl in the off-shore fishing port of Sea Village. While the girls in the village are simple, cute and friendly, strange rumors surrounding the Sea Village begin to spread. The rough sea fishermen in Sea Village look for a lively girl from the outside world to marry. As Rachel, the main character of this game, you must marry the men of the sea village and become the head of the Sea Village. Rachel has the passion of a girl from the modern day and the guts of a female sea fisherman. The tone of the game will change according to the costume you choose. Enjoy exploring the Sea Village. Feedback The following are customer reviews of this title Team Bat Bundle 3.0 5 133 133 Wanted: A good game! This game is unique in a way, because it is mostly based on a "titty-centric" theme; however, it is such a polished little game that is a great pick up and play, for any gamer! The combat and platforming are so good that I would absolutely recommend it to any gamer. The only weakness of the game is that it lacks the multiplayer and single player modes, which would have allowed it to be an even better game. If you are looking for a fun and entertaining game, that is a bit different, this is the game for you! It is an enjoyable (and fun to play!) platformer, with a bitchin' soundtrack, and a great story, that will have you saying "aw fuck it...I'll try it out!" Do yourself a favor, grab this game! It

### **What's new:**

**Horse Paradise - Mystic Cave Expansion Pack I will be making an expansion to Horse Paradise. It will be centered around Mystic Cave and Paradise Cove in the Horse Paradise map. I have included a small preview of the cave below. The cave you will be in will be of the age of the game such as Rift, it would have taken a long time to build up. Horse Paradise - Mystic Cave Preview**

**This is the design of it all the main rideable animals will be located towards the bottom left corner of the map, a lot will change once the whole map is build. I will also be including an island these riding animals will be able to travel to and from it will be named Paradise Cove. Once you are in the cave you can do the three things the small playfield will be in by either prying open a door and start the main rideable animals, swim in the wave machine and swim back to the entrance of the map such as it will be in a similar fashion to your current map. The existing map has enough to do some new riding animals have been added to the map. The old cave is completely surrounded by water I have added a boat, with two ladders one on either side of the boat One of the riding animals is searching a secret treasure chest for the rest of the animals There are two islands to the left of the cave and the villager that works as a small smelter to create useful items. In my design the map will be divided up into**

**4 different spaces One for the west, one for the east, one for north and one for the south. The boat is in the northern side To the top left there is the coiling Vortex that ends in a graveyard. On the middle of the map there is a river flowing down the middle of the map, there is sand and a sandy sea bottom. Underneath the river there is a small pool of water. There is also a small purple mushroom on the banks there where the animals will jump to. You will be stuck in either a coffin or a tiny pool of water depending on whether the rideables you are using are water or land based.
