An Android title published by KAIST Digital Media Zone.(Brought to you by, [redacted] (Korea)). STORY: In a world that is set far into the future, humanity remains separated into two groups. The first group is called the Order and the second group is called the Tarnished. Humanity is at a turning point in its history. This is where the story begins. ANDROID GAME The story begins on a day in which a young man named Myeong-joo awakens inside the Kingdom of Novus - a place where magic flows in every nook and cranny. There he meets a girl named Shin-Jin, who becomes his partner. The pair then travels to the capital of the Kingdom where they are informed that they are, in fact, descended from powerful Elden Lords. And, above all, that they are the magical power that the race needs most. GAMING INTERFACE Myeong-joo arrives in the city of Rood - where he encounters a mysterious figure named Anguilla. Within this figure, he stumbles upon the power of the Knight's Square, and transforms into a powerful Knight in shining armor. Throughout the game, players will experience a great variety of quests that are connected to the story, with each chapter beginning to flesh out the world. This is where the really interesting part begins to come in - that is to say, the online elements of the game. GAMEPLAY Action RPG games are known for having a wide variety of weapons that give players endless freedom to carry out actions. However, in the game, all of the weapons fall into two categories: Defense weapons and attack weapons. Your sword can never be used for both defense and attack, and your armor can do the same. Your attack power increases as you gain experience, but using your defense weapon or armor will cause damage to you, so you should consider carefully what you should use. Your experience is gained by equipping weapons and armor, and you can choose from a great variety of items. You can also become stronger using the Gear System, where you earn skills that you can use in battle by obtaining lots of items. By spending skill points, you can learn many skills, such as healing and resurrection. However, you will need many items to do
