Find info and downloads, including drivers, manual . Ricoh supports Windows 2000/XP/Vista/7.. here is the driver list, but it is for windows xp version so it . The easiest way to install your web camera is to install the appropriate driver software for your system. You can purchase it from [www.ricoh.com](http://www.ricoh.com). See the Ricoh . Ricoh has developed a so called application programming interface (API) for the access of hardware . Buy a Ricoh Camera Laptop. Find more drivers for your Ricoh camera and laptop at .Q: Location Select using GET method I have a LocationSelect component that has a getter for "entries". What I want to do is pass the locationId to that component and use the getter to obtain the locations that are passed to it. The goal is to then create a checkbox component for each location. This is the LocationSelect component. `import React from'react'; import LocationSelect from '~components/LocationSelect/locationSelect'; import Helmet from '~components/Helmet/helmet'; export default function LocationSelectPage({ locationId, onLocationSelect }) { const entries = useLocationsFromDatabase(locationId); return ( ); } This is the LocationSelect component (it's used as a child component of an Entry component). import React from'react'; import Helmet from '~components/Helmet/helmet'; import { Location } from '~locations/Location'; import { locationData, isLoading, keyExtractor } from '~locations/LocationSelect/locationSelect'; function LocationSelect({ entries, onLocationSelect,`
