

1. Full Feature Product CounterSketch Studio is the industry leading 3D design software for product customization. In addition to a wide variety of available materials, you also get access to a range of customization modules that make it easy to transform your designs into a reality. You can build hats, bags, belts, keychains, cuff links, clocks, bracelets, and much more. 2. Social Media Integration CounterSketch can be integrated with social media outlets such as Facebook, Twitter and Instagram, to allow for easily post your custom designs in real time on your store. The community will be able to view your designs and augment the design of the item you created, with likes, comments and ratings. All you have to do is pick a design template, pick an item from your store, and upload your design to CounterSketch using your cell phone, or computer. 3. CRM Functionality CounterSketch can track every order that comes through your store, automatically creating a report and viewing the customers history. The details that you collect about your customers such as address, phone number and email can help to improve your overall customer service. The software can also notify you when it is time to dispatch an item that has received a high rating or was created by a customer that placed a large order. 4. Free Trial CounterSketch Studio is easy to use and the free version will give you the same features and tools as the full version. All you have to do is unlock the full version of Countersketch and your CounterSketch Studio Trial isnt a trial at all. Its all yours, no strings attached. Enter your personal email address below to get your demo version! Limit one demo copy per email address.
