brian drury is an emmy-winning television art director, nominated twice for visual effects emmy awards. he is also a seasoned after effects user with years of experience in creating layers, saving/loading presets, and other editing functions. there are two new options in the covers panel: fold which lets you place pre-existing coverflow effects in the folder panel, and resize which enables you to fit the footage into the covers position. these two options will come in handy if you are creating a covers sequence and you want to place the coverflow effect in the folder panel. every time the folders panel is opened, the covers will be automatically placed in the bottom row of the panel, with the covers just like the preset ones. bill rowan is currently the director of creative at pinewood studios in toronto, where the dark knight trilogy was shot. prior to that, he was senior digital effects supervisor for international pictures and worked on such films as star trek, the english patient, and titanic. sunil r. venkatesh is currently working as a vfx supervisor for various feature films and commercials. he is a b.tech. engineer from iit and has worked in various capacities in vfx, for companies like industrial light and magic, skywalker industries, industrial magic, and dreamworks. he has developed many useful scripts for both after

---

effects and motion and has even built his own branded template library. moe rothman is another seasoned after effects expert who works primarily as a consultant and author. he has worked in the film industry for over 20 years and is the author of "advanced after effects workflow" and "power photoshop for after effects." he has also worked with sony pictures imageworks as an after effects trainer. 5ec8ef588b
