Tecnotest Reflex 3130 Serial

Regal Tours 2015 Ghana Tour 2015 SDC, Group Tours Ghana, Group Tours Ghana, Accra Tours, Ghana Tours, Vacation 2015, Ghana, AccraQ: Theming a MySQL view in Laravel 5.2 Here is my database structure for the events

```
table: Schema::create('events', function (Blueprint $table) {
    $table->increments('id'); $table->integer('user_id')->unsigned();
    $table->integer('week_id')->unsigned();
    $table->integer('month_id')->unsigned();
    $table->integer('year_id')->unsigned();
    $table->integer('reservation_id')->unsigned();
    $table->unsignedInteger('state')->default(0); $table->string('date_start');
    $table->string('date_end'); $table->integer('week_length')->default(0);
    $table->integer('month_length')->default(0);
    $table->integer('year_length')->default(0);
    $table->integer('reservation_length')->default(0);
    $table->string('main_street'); $table->integer('sub_street');
    $table->integer('city'); $table->integer('state');
    $table->integer('zip_code')->unsigned(); $table->string('theme');
    $table->string('title'); $table->integer('description_length')->default(40);
    $table->text('description'); $table->integer('credentials_id')->unsigned();
    $table->integer('featured_id')->unsigned(); $table->timestamps();
    $table->softDeletes(); $table->unique(array('user_id','month_id',
    'year_id','reservation_id')); });
```

Now when I apply a theme for the events, I can customize the view of the event f988f36e3a
