

## Steinberg H2o Driver 64 Bit

There are many hardware and software solutions to connect H2O devices (Kia Eos, Wasserbox, iProgress, TransferR, Rosetta. The following section will give you hints for how to install the correct drivers. If H2O requires a driver then check if it's present in the WAC package. If it's installed, launch the H2O Control ( H2O control.exe ), select the device and press Start. If you cannot see the device (device not found), refer to the manufacturer's manual. After installation you will need to restart the H2O controller to get it running. Using the H2O Control, you can manage individual H2O devices. Refer to your system manufacturer's manual for additional information. Following is an example for using the H2O Control to

download and connect to the H2O. For more information, see "Using the H2O Control" in the H2O documentation.

Note: When you use the H2O Control to download and start an H2O app, the app may not function. For more information on connecting to the H2O, refer to the H2O User Guide.

### Installing the H2O WAC Package

If you don't already have the WAC package installed on your computer, you can download it here. First, you need to download the WAC package installer by navigating to the Downloads tab. Then click on the Download now button. If you would prefer to wait for the download to finish, you can do so by selecting the Download later button. To install the WAC package, click on the Install button in the Install WAC package window. Open

the H2O Control, click on the Manage tab and select the device(s) you would like to download and install. Using the H2O Control When you use the H2O Control, you can manage individual H2O devices. You can use the H2O Control to: Connect the H2O device to the computer. Use H2O apps to download music or stream movies. Make music through the H2O devices. When you use the H2O Control to download and start an H2O app, the app may not function. You can download and install the H2O Control by selecting the Install button. For more information on connecting to the H2 f988f36e3a
