This set contains the first of three installments of this mini-series. As with all the mini-reviews from Saffron Stacy, he's totally objective, so his words saw first-hand evidence as he played around with the cards. For the reviews, he played most games and tested S.T.A.L.K.E.R. 2 with NVIDIA Geforce GTX Titan X GPUs. During that experience, Saffron Stacy collected the information he needed to create this gallery of graphics cards. He reviews the cards, hands them out to various people, and then runs two independent benchmarks. While the review was ongoing, Saffron Stacy took these tests to a lab, had the results verified, and even created a test system to prove the theory.
