This will be an excellent tool for artist working with patterns, or drawing a line with a brush. Keep a copy of your images in an online folder for viewing and editing on the go, and have them automatically upload/download to your main catalog. Or, upload a selected folder of images from your computer to your online folder. You can now import images from your iPad and access all your images through your iPad. Working with an iPad to access your files is as easy as tap or point with your finger on the screen.
